

CUBICLES

Whatever the project's size, shape or dimensional restrictions, Spa's 'bespoke' cubicles will meet your project's exact specification.

Manufactured from either moisture resistant or fire retardant mdf, all doors and panels are produced to your exact dimensions in any laminate, wood veneer, paint or powder coated finish you require. Panels can be supplied post formed (when finished with a suitable laminate), shaped or in certain situations curved to realise even the most adventurous designs.

Spa offer an on-site measuring facility to ensure that the supplied cubicles are an exact fit when delivered to site. Cubicles arrive on site in kit form, however, where possible, elements are pre-assembled to allow quick and simple installation.

Cubicles are supplied with all fittings, feet, anti finger trap hinges, door locks and coat hooks. All these items can be specifically requested to suit/match the existing scheme.

Spa can also offer the production of matching vanity units, baby changing units, wall panelling and shelving to ensure continuity of design and surface finish.

Applications:

As toilet cubicles in:

- Offices
- Restaurants
- Clubs
- Leisure Facilities
- Schools and Universities
- Supermarkets
- Hotels
- Bars
- Factories
